Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Applicant's June 12, 2006 Declaration has been reviewed. The previous rejection is withdrawn pursuant thereto. Applicant is requested to clarify if the material associated with the Declaration was ever published, and if so when. Claims 21-34 remain withdrawn from consideration as drawn to a non-elected invention.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 4, "physical" is not clear as to its meaning.

Claim 20, line 6, "physical" is not clear as to its meaning.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-20, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson et al, US 5,712,989.

Johnson discloses a communication network system comprising an asset manager, e.g. inventory database, off-line, e.g. distributor list price, and on-line assets, e.g. database 20, 50, e.g. inventory 52, 54, an information link, e.g. 10. Johnson does not disclose a physical asset manager. Official Notice that a physical asset manager has been common knowledge in the art. To have provided such for Johnson would have been obvious to one of ordinary skill in the art. The motivation for having done such would have been to implement a common knowledge management system.

6. Claims 1-20, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's disclosure.

Applicant's prior art disclosure, e.g. June 12, 2006 Amendment referencing Applicant's specification, page 1, lines 18-25, encompasses in broad scope and content Applicant's claim language. It is noted that Applicant's claim language is not limited to an one physical network management system. The fact is that two separate physical network management systems may be used to implement the claim language and fully encompass such. The term integral is not present in the claim language. Even if this term were included, it would include two separate physical network management systems.
